

Early Childhood Family Education

For Fulda Area Families

ECFE is a program for birth to age 5 children and families. It is a chance to participate in activities facilitated by a licensed Teacher and also for parents to meet with a licensed Parent Educator and other parents of young children. ECFE meets one time per week for 1.5 hours. There will be many age appropriate activities for you to do with your child. ECFE promotes cognitive, physical, emotional, and social development. We work with the children, their families, and the community. We will be having our ECFE classes at the Elementary School **starting Monday, October 2, 2023** for an 8 week session in the fall and an 8 week session in the winter/spring of 2024. \$25/per 8 week session-per family.

Benefits of ECFE

1. Encourages positive parental interactions that impact how children develop and learn
2. Research shows that ECFE programs involving parents with their children are more effective than programs focusing exclusively on children.
3. Children whose parents are involved in their early education are more likely to be successful in school.

Why attend ECFE?

1. Parents meet to share support, experiences, and information about child development, along with parenting techniques.
2. Through a variety of ECFE classroom activities, children view themselves as competent learners and practice social skills as they demonstrate making friends, solving conflicts and functioning in a group.

ECFE REGISTRATION

Early Childhood Family Education

2023-2024

Child's name _____
