

February 1, 2017

Dear Parents,

This is an informational letter about PSEO (Post Secondary Education Option) that Fulda Public School must send out notifications to all pupils in grades 8, 9, 10, 11 according to state law 124D.09 Subd 7. Each post-secondary institution determines the admission requirements.

Mr. Slaathaug will be administering the Accuplacer exam later this spring at the Fulda High School to all eligible PSEO students who have not already qualified.

A student must also notify the principal's office in writing by May 30th of his/her intent to enroll in any PSEO classes in either the **fall or spring** semester of the 17-18 school year. According to state law a student is bound by notifying or not notifying the district in writing by May 30th. If you have any questions please contact the school for assistance as to whether or not PSEO is a good option for your child. This requirement is not subject to college course taught at Fulda Public School.

Please keep in mind that Fulda Public cannot help register the child for their PSEO classes. It is a student and parent responsibility to talk to the college and get all necessary paper work completed for the college. Please keep in mind once a child enrolls in a PSEO class, for that part of the day the student will need to leave the school for the hour they are not enrolled in high school classes. Fulda Public Schools will not loan out equipment or facilities or staff to help complete student's class/classes. I would also like to inform the parents that we do offer several College in the School courses where students get to stay on campus and receive college credits. We ask parents to take a close look at those options as they will appear in our registration booklet coming out this spring.

Sincerely,

Gregg Slaathaug
HS Principal/AD
